E-Waste Management

The Institute of Engineering & Management places a strong emphasis on electronic waste (e-waste) management as a critical aspect of its operational strategy. Over time, the institute has successfully handled a significant volume of e-wastes, necessitated by the regular upgrading of electronic equipment. In light of the rapid advancements in technology, the institute consistently adopts state-of-the-art electronic devices, contributing to the generation of e-wastes.

To address this environmental challenge responsibly, the institute has implemented a systematic e-waste management procedure. This procedure ensures that the disposal of electronic waste is conducted in an environmentally friendly manner, adhering to regulatory guidelines. By incorporating sustainable practices into its daily operations, the institute not only minimizes its ecological footprint but also sets a precedent for responsible e-waste management within the academic community.

The commitment to proper e-waste management reflects the institute's dedication to environmental sustainability and aligns with global efforts to address the challenges posed by electronic waste. Through its conscientious approach, the Institute of Engineering & Management demonstrates that technological progress can coexist harmoniously with environmental stewardship.
