| Remarks (if any) | Action Taken |
|---|--|
| Every student need to be proficient in at least one programming language irrespective of their stream. | 1. Collaboration with online learning and skill building platforms for job readiness and higher employability is done. |
| Curriculum should be more focused towards practical industry exposure and students should be trained on Power BI, SAP, Success factor Etc. | 2. More soft skill and personal grooming sessions were included |
| Current industry topics like Machine Learning, AI, Industry 4.0, IoT, Cyber Security could be implemented more which help the students in the industry. | 3. More focus on practical teaching is given, which included hands on lab experiments, mini projects and case study based learning |
| Curriculum of IEM for the course of B.Tech is highly in accordance to latest industrial requirements. Moreover, faculty also promote learning of new academic curriculum. | 4. Industry visits and more practical based projects and applications are incorporated in the curriculum |
| | 5. Curriculum was structured and updated based on courses which will improve employability of students |
