

Institute of Engineering & Management

Salt lake Electronics Complex, Kolkata - 700 091, WB, India

Virangana Program

Rotary Club of Kallolini Kolkata

The Institute of Engineering & Management, in collaboration with the Rotary Club under the auspices of Rotary International districts, is actively engaged in organizing "Virangana sessions." These sessions are purposefully designed to uplift women empowerment and instill courage in the younger generation, nurturing them to be formidable contributors to the nation.

The "Virangana sessions" serve as a platform to empower women, fostering a spirit of resilience and self-reliance. By focusing on women's empowerment, the initiative aligns with broader goals of social progress and gender equality.

The institute's commitment to social welfare is further exemplified by the ongoing expansion of its network of collaborative sessions with the Rotary Club. This collaboration signifies a dedication to addressing societal issues and contributing to community development. The continuous involvement with the Rotary Club showcases the institute's proactive stance in leveraging education as a tool for social transformation.

Through these collaborative efforts, the Institute of Engineering & Management not only imparts academic knowledge but also actively participates in shaping a socially responsible and empowered community. This holistic approach underscores the institution's commitment to instilling values of courage, empowerment, and societal responsibility in its students and the broader community.
